

BIOLEVEL

ReGenerator Soluble Powder

This product is intended for the microbial and fungal breakdown of harvest residues. This process recycles humic material and nutrients into the soil and improves the mechanical workability of the field. Biolevel Regenerator further contains microorganisms that have been shown to increase availability and uptake of Nitrogen, Phosphorus and Potassium.

DIRECTIONS FOR USE

An application after harvest or towards the end of the growing season is recommended. This product can be applied in furrow or broadcast and blended with water or other liquid agricultural inputs like animal slurry, fertilizers or plant protection products. This product is broadly compatible with non-bactericidal inputs. Check mixture compatibility using a jar test prior to application. Apply within 24 hours after mixing.

APPLICATION RATE

The minimum recommended rate per acre is 100 grams mixed with a minimum of 10 gallons of water. For best results, use higher water volumes or time the application with rainfall to enable good soil penetration. Depending on field conditions, a higher use rate can be beneficial. **This 5KG bucket can treat 50 acres. For smaller treatment areas, measure by weight 100 grams per acre, or approximate by measuring by volume 5.5 FLOZ of the dry powder per acre.**

Storage and Handling

Please store in dry conditions and avoid freezing temperatures and temperatures above 50 Degrees Celsius (122 F).

CONTAINS NON PLANT FOOD INGREDIENTS

GUARANTEED ANALYSIS

Soil Amending (Active) Ingredients

Pseudomonas putida	5x10 ⁷ CFU/g
Bacillus subtilis	5x10 ⁷ CFU/g
Bacillus licheniformis	5x10 ⁷ CFU/g
Bacillus amyloliquefaciens	5x10 ⁷ CFU/g
Bacillus megaterium	5x10 ⁷ CFU/g
Bacillus pumilus	5x10 ⁷ CFU/g
Paenibacillus polymyxa	5x10 ⁷ CFU/g
Trichoderma	2.4x10 ⁷ CFU/g
Phanerochaete	2.4x10 ⁶ CFU/g

Inert Ingredients

Dextrose monohydrate powder (97.6% w/w)

HAZARD WARNING

This product may cause adverse effects to individuals who are allergic to certain micro-organisms and also to immune deficient individuals. Avoid exposure through digestion or inhalation, or to open wounds and eyes. Wear standard goggles, gloves, face mask and protective clothing during product handling. Use this product in well ventilated areas. In case of exposure, flush eyes for at least 10 minutes and/or wash hands with soap and water.

Keep out of reach of children.
